Software Development Student

Software Development student at BYU-Idaho with experience building full-stack web applications using JavaScript, React, Node.js, Express, Python, C#, HTML, CSS, and MongoDB. Experienced working remotely with international teams, meeting deadlines, reviewing work for accuracy, and communicating clearly across cultures. Seeking an entry-level software development, web development, or internship role where I can contribute to reliable, user-focused applications.

Technical Skills

- Languages: JavaScript, Python, C#, HTML, CSS
- Frontend: React, responsive design
- Backend: Node.js, Express.js, .NET
- Databases: SQL, MongoDB
- Tools: Git, GitHub, Trello, Microsoft Teams, Google Workspace

Projects

Book Discovery and Recommendation App | Node.js, Express, JWT Authentication

- Built a full-stack web application that helps users discover books through personalized recommendations.
- Implemented MVC architecture, REST API routes, JWT authentication, and server-side validation with express-validator.
- Integrated external book APIs and stored user/book data in MongoDB.
- Repo: <https://github.com/ayusograce/bookRecApp>
- App: <https://bookrecapp25.netlify.app/>

Splashy Fish Game | Python, Arcade

- Developed a 2D arcade-style game using Python and the Arcade library.
- Implemented player movement, obstacle logic, score tracking, sound effects, and game state handling.
- Repo: https://github.com/ayusograce/splashyfish_game
- Video demonstration: https://youtu.be/x-i-rOcf3E?si=3t5Q9rXd5bhelPO_&t=241

Invoice Tracker | .NET, JavaScript, C#

- Built an invoice management application with authentication, authorization, and session-based user access.
- Implemented CRUD functionality to create, view, update, and delete invoice records.
- Collaborated on a team project using GitHub for version control.
- Repo: <https://github.com/lishdiane/invoice-tracker>
- App: <https://invoice-tracker-363n.onrender.com/>

Education

Bachelor in Software Development
BYU-Idaho

Anticipated 2027

Associate of Applied Science in Software Development
BYU-Idaho

2026

- Develop dynamic, data-driven web applications using both relational and NoSQL databases.
- Design websites that are visually appealing and follow industry standards.

Web Development Certificate

2025

BYU-Idaho

- Develop, document, and deploy web services, and full stack web applications.

Experience

Data Entry Specialist

2025-2026

Springboard (USA - Remote)

- Exceeded weekly productivity targets by 15–20% while maintaining high accuracy and meeting strict deadlines in a remote environment.
- Selected after the first month to audit and verify teammates' work, helping reinforce quality standards.
- Collaborated with an international team and maintained clear communication across cultures and time zones.
- Used Microsoft Office and Google Workspace to document updates, track progress, and communicate status.

Volunteer Representative

2022-2023

Church of Jesus Christ (Quito, Ecuador)

- Provided one-on-one guidance, encouragement, and support to individuals, helping them set goals and overcome personal challenges.
- Increased weekly goal outcomes from 50% to 85% within four months through consistent follow-up, accountability, and motivation.
- Strengthened interpersonal skills, active listening, and adapting support strategies to individual needs.
